

New issues during month	
A	The 'Litter Detectives' trail will once again take place at Playfield Rd playing field during the summer holidays. The council is requested to replace any posters that are removed or damaged while the trail is being run by the district council.
B	Email received from resident in relation to parking outside the Co-op: <i>"I am growing more and more concerned about the constant illegal parking of customers, employees and suppliers at Avicenna Pharmacy and the Co-op. The road has already reduced visibility (hence the double yellow) and such selfish behaviour only makes it more dangerous. It is simply unacceptable that actions like these, that endanger all road users and in particular those more vulnerable, like pedestrians and cyclists, are simply accepted and never policed. I hope we don't have to wait for somebody to be ran over and perhaps even a fatality to take action. I have attached pictures taken only today, but one could find 20 examples each single day."</i>

Continuing issues	
C	Email received from solicitors in relation to the insurance claim to repair the bus shelter on Kennington Road, which was hit by a vehicle. Clerk will respond to queries on behalf of the council.
D	Clerk has passed on the council's response to the Local Plan Issues Consultation.
E	Email received from resident of Upper Road: <i>"It seems ages that disgusting van was left outside 12 Upper Road, Kennington, Oxford (1 May 2022) and it is still there with a front flat tyre and rubbish on the windscreen and notes left on it (I don't care but the only way that vehicle is going to move is to be towed away). Please can something be done I am not cutting the grass verge along side it. There is basically nothing inside it but rubbish comments from people in the village is how do you put up with that vehicle dumped outside your homes. Please can someone tell the owners to take their rubbish from outside our homes and out of the village. A very grateful resident if you can do something about it. Who will end up with it next could be you. Thanks for any help."</i>
